72

- D3B-2**

**BUTTED SEAM**

Machine produces a flat, one-thread butted seam (standard configuration).
- Y3B-2**

**STITCH MULTIPLIER**

Machine is designed with a non-differential mechanism for increasing the stitch count, particularly at selvages.
- G**

**GAP**

Machine creates a gap between the joined ends of the fabric.
- R**

**ROLL**

Machine creates a rolled seam at joined ends of fabric.
- HP**

**HIGH PILE**

Machine is engineered for use on high pile fabric.
- LS**

**2-THREAD**

Two-thread locked stitch machine.
- CNP**

**NICKEL PLATE**

Machine is chemically nickel plated for use in wet and harsh environments; extreme corrosion resistance.
- RAIL**

**RAIL**

Machine is designed to be mounted on a railway sewing system.
